PERMIT REQUIREMENTS

1. A permit shall be obtained **PRIOR to any** connection is made to a hydrant.
2. The applicant shall be responsible for all damages that occur to the fire hydrant, water mains, and other appurtenances as a result of the applicant's negligence.
3. The approved backflow prevention assembly attached to the meter **MUST** be used while operating the hydrant.

Absolutely no changes or modifications in the meter and backflow plumbing will be allowed. The meters' plumbing arrangement must come back exactly as it was given out. Any changes in plumbing must be adapted at the discharge end of the arrangement at the expense of the user. Any changes noted upon return will nullify the return of the deposit.

4. An approved fire hydrant wrench must be used while operating the hydrant.
5. The applicant or his agent shall be at the hydrant from the time the connection is made until the time the connection is removed. All fittings shall be removed from the fire hydrant when not in use.
6. The applicant's copy of this permit shall be kept at the location of the fire hydrant whenever used. and shall be presented to any person employed by MATR or the Township of Robinson when requested.
7. The barrel of any fire hydrant used between the dates of November 1 and March 31 shall be pumped *dry* to the foot valve of the hydrant, by the applicant, **IMMEDIATELY** after each time the fire hydrant is operated.
8. This permit is only intended for the stated purpose and is valid until _____. At the permit's expiration, the applicant must re-apply for a new permit.

By executing this permit, the applicant or his agent understands and agrees to all permit requirements. Failure to meet any requirement shall subject the applicant to forfeiture of the deposit in its entirety and possible further action pursuant to MATR Rules and Regulations.
